ACABADOS / FINISHES / FINITIONS / FINITURE / OBERFLÄCHENAUSFÜHRUNG / ОТДЕЛК

ES Por defecto los módulos vienen con tapa simple y barramento en el acabado escogido, si se desea cambiar el acabado de la tapa y/o barramento será necesario añadir estos elementos aparte en el acabado deseado. Como excepción, los módulos en acabado MDi no incluyen tapa, será necesario siempre añadir una tapa aparte en el acabado deseado.

EN By default, the modules come with a simple top and bar in the chosen finish. If you want to change the finish of the top and / or bar, the desired finish can be added separately. As an exception, the modules with an MDi finish do not include a cover, so a cover in the desired finish will always have to be added.

- ES** Por defecto los pedidos de referencias independientes se fabrican como en su respectiva imagen representativa, cerrados con tapa simple, íntegramente en el acabado escogido. Si desea que el módulo quede abierto por arriba debe indicarlo. Para cambiar el acabado de la tapa o barramento/s deberá añadir esta referencia aparte. Para añadir tapa con lavabo/s integrado/s deberá añadir esta referencia aparte. Para realizar modulaciones entre distintas referencias deberá añadir al pedido las distintas referencias de la modulación así como una tapa de cierre simple o con lavabo/s en el acabado deseado y de la medida L total correspondiente al total de la modulación. Cuando se realizan modulaciones entre distintas referencias la construcción de los módulos será modificada en los puntos de unión de manera que el aspecto final de la composición sea el determinado por el sistema. Las composiciones de módulos inferiores a L180 cm podrán ser convertidas a módulos compactos y se enviarán montadas en una sola pieza. Para módulos abiertos ubicados en los extremos de la composición, opcionalmente puede añadir lateral/es decorativo/s para el cierre de la misma.
- EN** By default, orders for independent items are manufactured as seen in the photo using a simple cover, entirely in the chosen finish. If you want the module to be open at the top, please let us know. To change the finish of the top or bar / s, please add the item. A lid with an integrated basin / s has to be added separately. To make modules from different references, each one must be added to the order, such as a single closing lid or a washbasin / s in the desired finish, and the total L measurement will correspond to the entire module. When modules are made up using different references, the construction of the modules is modified at the joints so that the final appearance of the composition is determined by the system. The compositions of modules smaller than L180 cm can be converted to compact modules and will be shipped ready-assembled in a single piece. For modules located at the ends of the composition, decorative side(s) must be included to finish it off.
- FR** Par défaut, les commandes de références indépendantes sont fabriquées comme sur leur image représentative respective, fermées par un simple plateau, entièrement dans la finition choisie. Si vous souhaitez que le module soit ouvert sur le dessus, vous devez le préciser. Pour changer la finition du plateau ou de la/des barre/s, vous devrez ajouter cette référence à part. Pour ajouter un plateau avec vasque/s intégrée(s), vous devrez ajouter cette référence à part. Pour effectuer des modulations entre différentes références, les différentes références de la modulation devront être ajoutées à la commande, ainsi qu'un plateau simple ou avec lavabo/s dans la finition souhaitée et de taille L totale correspondant à la modulation totale. Lorsque des modulations sont faites entre différentes références, la construction des modules sera modifiée aux points de jonction pour que l'aspect final de la composition soit déterminé par le système. Les compositions de modules inférieurs à L180 cm pourront être converties en modules compacts et seront expédiées assemblées en une seule pièce. Pour les modules ouverts situés aux extrémités de la composition, vous devez ajouter un/des côté(s) décoratif(s) pour le fermer.
- IT** Per default, gli ordini di articoli indipendenti sono fabbricati come si vede nella foto con una semplice copertura, interamente nella finitura scelta. Se vuoi che il modulo sia aperto nella parte superiore, ti preghiamo di farcelo sapere. Per cambiare la finitura del piano o della barra / s, si prega di aggiungere l'articolo. Un coperchio con una vasca integrata / s deve essere aggiunto separatamente. Per comporre i moduli a partire da diverse referenze, occorre aggiungere all'ordine ognuna di esse, come un singolo coperchio di chiusura o un lavabo / s nella finitura desiderata, e la misura totale L corrisponderà all'intero modulo. Quando i moduli vengono composti con riferimenti diversi, la costruzione dei moduli viene modificata nelle giunzioni in modo che l'aspetto finale della composizione sia determinato dal sistema. Le composizioni di moduli più piccoli di L180 cm possono essere convertite in moduli compatti e saranno spedite già assemblate in un unico pezzo. Per i moduli situati alle estremità della composizione, è necessario includere uno o più lati decorativi per rifinirla.
- GE** Standardmäßig werden Bestellungen für eigenständige Artikel wie auf dem Foto zu sehen mit einem einfachen Deckel, ganz in der gewählten Ausführung, gefertigt. Wenn Sie das Modul an der Spitze offen sein soll, lassen Sie es uns bitte wissen. Um die Ausführung des Deckels oder der Bar / s zu ändern, fügen Sie bitte den Artikel hinzu. Ein Deckel mit einem integrierten Becken / s muss separat hinzugefügt werden. Um Module aus verschiedenen Referenzen zu machen, muss jeder der Bestellung hinzugefügt werden, wie z. B. eine einzelne Schließdeckel oder ein Waschbecken / s in der gewünschten Ausführung, und die gesamte L-Messung wird auf das gesamte Modul entsprechen. Bei der Zusammenstellung von Modulen mit verschiedenen Referenzen wird die Konstruktion der Module an den Verbindungsstellen geändert, so dass das endgültige Aussehen der Zusammensetzung durch das System bestimmt wird. Die Zusammenstellungen von Modulen, die kleiner als L180cm sind, können in Kompaktmodule umgewandelt werden und werden in einem Stück fertig montiert geliefert. Für Module, die sich an den Enden der Komposition befinden, müssen dekorative Seiten hinzugefügt werden, um die Komposition abzuschließen.
- RU** По умолчанию заказы на независимые изделия изготавливаются, как показано на фотографии, с использованием простой крышки, полностью в выбранной отделке. Если вы хотите, чтобы модуль был открыт сверху, пожалуйста, сообщите нам об этом. Чтобы изменить отделку верха или планки / с, пожалуйста, добавьте этот элемент. Крышка со встроенной раковиной / с должна быть добавлена отдельно. Для составления модулей из разных артикулов, каждый из них должен быть добавлен к заказу, например, одна закрывающаяся крышка или умывальник / с в желаемой отделке, и общее измерение L будет соответствовать всему модулю. При составлении модулей с использованием различных эталонов конструкция модулей изменяется на стыках, так что окончательный вид композиции определяется системой. Композиции из модулей размером менее L180 см могут быть преобразованы в компактные модули и будут поставяться в собранном виде. Для модулей, расположенных на концах композиции, необходимо включить декоративную сторону (стороны), чтобы завершить ее.

Para barramento en distinto acabado del mueble añadir aparte. / For upper inner front in a different finish of the furniture add separately. / Partie frontale en différente finition, à rajouter. / Struttura frontale interno superiore in una diversa finitura del mobile aggiungere a parte. / Für Frontschürze innen sichtbar in einem anderen Finish der Möbel separat hinzufügen. / Для верхнего внутреннего фасада в другой отделке мебели добавить отдельно.
